Re: ***PetroDome North America, LLC Small Mine Reclamation Contract***

Dear Ms. Abate,

In connection with its small mine permit (number S/047/0117), PetroDome North America, LLC (the "Company") recently submitted a reclamation contract to the State of Utah Department of Natural Resources, Division of Oil, Gas and Mining ("DOGM"). The Company also remitted to DOGM a check from Uintah Gateway Holdings, LLC (check number 3020) in the amount of \$64,400 for the required reclamation bond.

The Company has not yet engaged in any work whatsoever on the proposed mine site and has now determined that it will wait to post bond until the Company is prepared to begin actual site work/mining operations, all in accordance with applicable state regulations. The Company has therefore cancelled payment on the check and would be grateful if you would kindly return it to my attention at the following address:

Karl Taylor, Controller
PetroDome North America, LLC
3165 E. Millrock Drive, Ste. 550
Salt Lake City, UT 84121-5563

Although the Company is not attempting to post bond at this time, we appreciate DOGM keeping the Company's reclamation contract on file, and will of course move forward with the bond posting prior to any site work.

If you have any questions regarding this request, please do not hesitate to contact me.

Sincerely,

Karl Taylor
Controller
